I did get in front of Greg for the follow-up Options Selection call with Anne Idsal for the final version of the NSPS OOOOa 'technical package'.

Ex. 5 Deliberative Process (DP)

Thanks, Cindy. No worries - just want to make sure the UOG POC is working for al of us. Happy to accept feedback.

Aside from what's in the briefing book, I think Greg would benefit from hearing about all the collaboration projects you/R8 is working on with co-regulators and stakeholders. Have you had the opportunity to get in front of him yet?

Megan – Thanks for your email. I'm on the road in WY working with WDEQ in the Upper Green River Basin and I know I missed the last call. I have been keeping R8 mgmt posted on our call discussions after each call and I probably should've looked at those emails to see if I'd already let them know of that date. All I recalled in my rush to get through email (so I could go to dinner and then watch the Astros!) was that the date had been postponed (for GWPC) and I didn't remember the finalized date. Sorry about that.

That said, do you reckon there is more we should brief Greg about that is outside of the briefing book?

Thanks,

Cindy Beeler

Hi, Cindy,

My email to R8 leadership was only to let them know about the R/T and give them the opportunity to brief Greg (if they hadn't already). We've been talking about the R/T for some time now on our UOG POC calls (& it's consistently been on the agenda) - I'm surprised that you are just now hearing of the Nov 4-5 date? If I haven't been clear, let's talk about it.

Updates to the Briefing Book are not necessary. We did them just a few months ago & instead I was planning on cleaning it up & shipping it out on Friday. If there are big updates you think I may be missing for R8, please let me know.

Thanks for your note,
Megan

Megan –

Just heard from Monica Morales that the 2nd O&G Roundtable date has been sent and that you'd like Greg prepared for produced water and air topics. Are you intending for the UOG-POC group to update the 'IOGCC Briefing Book'?

Thanks,

Cindy Beeler

Monica –

I have not been asked to participate in this 2nd O&G Roundtable meeting. I have been sitting in on Megan's UOG-POC (Unconventional O&G Point of Contact) group as R8 rep (per Deb Thomas request) and sending you, Scott and Deb notes following the UOG-POC calls.

This roundtable meeting has been in the planning stages for a while but now it looks like a date has been set. I missed the last UOG-POC call because it was changed to a different date/time and I had already set up a call with OAQPS & OTAQ to support UDAQ's request for assistance on resolving a small engine issue in the Uinta Basin.

In the past I have compiled R8 updates to the IOGCC briefing book as a part of the UOG-POC effort. I'll check with Megan to see if she intends to ask the UOG-POC for updates (last update was mid-year).

Let me know if there is something else you'd like me to do.

Subject: Upcoming O/G Roundtable

Good morning!

Hope you all are well.

As you may be aware, Greg is attending the Oil and Gas Roundtable in ABQ a week from Monday (Nov. 4-5). This roundtable is a bit different than the EPA roundtable held at R8 in Feb. 2018. STRONGER is convening the Nov. 4-5 event (through EPA grant funding) and we (EPA) did not manage the planning process / will not manage the actual event. That said, we provided a lot of input (I sat on the planning committee) and we have goals for the R/T – including expectations that we leave the event with feedback and input on how we can improve our o/g regulatory and policy efforts.

Greg and R6 RA Ken McQueen (along with Taim, the R6 Energy Advisor) are the regional EPA representatives participating in the R/T. **The purpose of this email is to make you aware of Greg's plans and encourage you to brief Greg on any R8 o/g related hot topics before the R/T event (if you haven't already).** Produced water and air quality/methane are both on the agenda. We also have suggested cross-cutting issues to tee up. <https://www.strongerinc.org/wp-content/uploads/2019/10/2019-Oil-and-Natural-Gas-Stakeholder-Roundtable-Attendee-Information.pdf> I am hopeful Greg and Ken can share their regional experience.

If you need anything from me – additional details, context, etc. – please let me know. I am going to update the IOGCC Briefing Book for the R/T event and I'll get that out to the EPA R/T participants this Friday. We also have an EPA planning call on Tuesday (10/29).

Thanks, Megan
